

Michelle Marie Spahn

831.588.1869 michellespahncreations@gmail.com 511 Park Way, Santa Cruz, CA 95062

OBJECTIVE: WEB DESIGN

QUALIFICATIONS: I approach every Web Design project with enthusiasm and excitement. The creative process of producing a look and feel to match the client and their product or business, and the problem solving involved in organizing information clearly so it is accessible to the viewer is stimulating.

My experience includes making Web Pages that are Web Standard Compliant using both Tables and Positioning styled with CSS. I have working knowledge of Photoshop, Illustrator, JavaScript and PHP. I am increasing my skills of Flash and InDesign. My years of experience as a teacher contribute to my ability to work in a fast paced environment, communicate well with co-workers and clients, organize information clearly, and learn new skills.

I truly enjoy increasing my knowledge through college courses and online resources and am extremely resourceful in finding needed information to complete my personal projects.
